CM/L - 8200169813

## About

Svcc Plaster Care This Liquid Form Waterproof Additives , It Unique Formula Consists Of SVCCPL Special Waterproofing And Self Curing Additives For Mortar And Plaster,

SVCC PLASTER CARE Can Be Used For Internal, Ceiling And External Plaster Works, Especially On External Walls, Bathroom, Overhead Concrete Tanks, And Specifically For All Walls If Construction Is In Rainy Regions To Resist Rain Water Seepage.

## Description

SVCC PLASTER CARE Is An Integral Water Proofing Compound Ideal For Use With Both, Concrete And Plasters. PLASTER CARE Is Based On Specialized Surfactants And Synthetic Resin Which Impart Superior Flow And Cohesive Properties In Concrete And Mortars. Use Of Integral Water Proofing Compounds In Concrete And Mortar Is One Of The Precautions Taken To Achieve A Waterproof Concrete Or Plaster.

## Svcc Plaster Care

- Durability Is Increased Due To Air entraining
- Segregation, Bleed And There After Honey Combing Is Prevented.
- Surface Finish Of Concrete And Plasters Improved.
- Attack By Sulphates & Chlorides From Ground Water In Coastal Areas Is Well Tolerated.

## Directions For Use

Add Svcc Plaster Care In Concrete And Mortar Along With Water At The Rate Of 200 To 400 MI Per Bag Of Cement, Depend On Mix Design Ratio In Situations The Dosage Could Be Added .

## Proper Mix Design

Use Of A Good Integral Waterproof.

It Is Emphasized That Integral Waterproof And Plastcisers Only Help In Making A Good Motar Better. Hence Observance Of Good Construction Practices Is Of Utmost Importance For Achieving The Overall Goal.

## Caution

SVCC Plaster Care Good Waterproof Concrete Or Plaster Is Achieved By Good Construction Practices. Precautions To Be Taken To Achieve The Goals Include:

## Action

SVCC Plaster Care Functions In The Following Manners: In Mortar It Reduces The Possibility Of Shrinkage Cracks. It Improves Adhesive And Tensile Properties Of Mortar.

## Compatibility

SVCC PLASTER CARE Compatible With All OPC, SRC & Slag Cements.

## Dosage

.The normal recommended dosage is between 0.4 %to 0.8% by total weight of cementitious material, The optimum dosage of plaster care to meet specific requirement should always be determined by trials using the materials and conditions that will be experienced in use or contact svcc team and Stir well before use.

## Packing

SVCC PLASTER CARE Is Available In Packs of 1/2 KG , 1KG , 2.5KG , 5KG , 25KG.

## Advantages

- Improve workability & Good adhesion.
- Low shrinkage during drying.
- Improve surface finish of wall.
- Excellent durability of plaster.
- Bleed reduction due to the greatly improved setting times.
- Reduces water curing period.
- increasing excellent Waterproofing.
- Reduces Efflorescence.
- Excellent water Resistant.
- eco-friendly.

### PACKAGING

#### Packing Size :-

1/2 Kg, 1 Kg, 2.5 Kgs  
5 Kgs, 25 Kgs Cane.

Packing Material :-  
HDPE Cane

1/2 Kg

1 Kg

2.5 Kgs

5 Kgs

25 Kgs

Manufactured & Marketed by :
