About

Being an unparalleled manufacturer, exporter and supplier, we are offering Liquid Super Tile Adhesive to the clients. The provided adhesive is used to fix and seal the mortars, tiles, marbles and other building materials to the horizontal surfaces. Available in different packaging options to suit the specific needs of clients, the offered adhesive is processed by our seasoned professionals by utilizing optimum quality chemicals and pioneering methodology. Furthermore, we are offering this Liquid Super Tile Adhesive to the clients at pocket ECO friendly prices, compare to other powder tiles adhesive.

Description

Siddhi Vinayak Super Tile Adhesive is a liquid form, Super Tile Adhesive is specially formulated to suit most tiles including ceramic, Granite, Porcelain, Mosaics, fully vitrified and natural stone (excluding moisture sensitive stone). Super Tile Adhesive is suitable for use over many different surfaces including timber (indoors) as well as fibercement sheets, Concrete and plasterboard where surfaces are subject to thermal and shrinkage movement. Super Tiles Adhesive can be used indoors (including showers) and outdoors provided there is no standing water and there is a sufficient fall achieved in installation for water runoff.

Advantages

Super Tile Adhesive acts as the cost-effective solution for making tiles water protected. Useful for enhancing tensile strength and adhesive properties of mortars Convenient to apply and Eco-friendly content.

- Liquid Super Tile Adhesive water proofs the tiled area.
- Super Tiles Adhesive Improves adhesion and tensile strength of mortars.
- Super Tile Adhesive is economical.
- Super Tile Adhesive Easy to use.
- Super Tile Adhesive is a Non-toxic

Primary use

Siddhi Vinayak Super Tile Adhesive is used for attaching ceramic tiles on mosaic or concrete flooring.

- Super Tile Adhesive is also effective in affixing granite slab on concrete flooring and for installation of marble slabs on flooring.
- Super Tile Adhesive useful to set up wall skirting perfect for affixing ceramic and glazed tiles, granite on flooring and walls.

Preparation For Usage

In case of affixing granite slabs, ceramic tiles and marble slabs on concrete flooring & wall, blend 200ML of Siddhi Vinayak Super Tile Adhesive with 10 kg cement (white or gray as per requirement), 2/3 liters of water and 05 kg free flow sand to prepare thick mortar.

The prepared mortar can be used for fixing tiles over 37 sq/ft area by forming 5 mm thick bed. Smear the mortar on floor surface uniformly and compress the marble, granite and ceramic tiles to fix these in desired position. Apply the mortar on primer treated mosaic floor in a uniform manner. Position the slab or tile to their precise position on the mortar treated surface. It should be remembered that primer (applied by brush) tends to dry within short period. Therefore, the primer needs to be applied on marble or granite or tile shortly before their affixing.

Standards

- IS 9103:1999
- ASTM C 494

PACKAGING

Packing Size : - 5ltr, 10ltr, 20ltr Bucket

Packing Material : - HDPE Buckets

Manufactured & Marketed by :

SIDDHI VINAYAK
